I can't believe the justice department is still harassing Microsoft. Where were you when Enron was stealing from it's stock holders. I can't believe how selective you can be about your cases. Does it have to do with the amount of money the company passes or doesn't pass out to the officials? I don't get a penny for this letter, but I say these things because I do admire a man that has worked so hard to make his dream come true. Get OFF Microsoft's back already!!!

Thank you, Carmen A. Cancel
